

Modern Spearhead – Official TO&E Errata – Version 1.00 – 26 July 2006

<http://modernspearhead.net/>

The following document is part of the official Errata and Corrections for Modern Spearhead as at the date specified above.

This has been provided in a format that can be cut out and pasted/glued directly into your rules over the top of the existing text – it is clearly marked where each section of errata should be applied. Changed sections of text in the boxes are shown in *Italics* wherever possible. In some cases you are simply asked to strike out or delete part of the text – in these cases we recommend that you do so with a soft pencil.

We envisage these errata as being fairly comprehensive however this document (TO&Es) may be periodically updated but should eventually stabilise as a definitive document. A change log is provided to identify where changes are made, should subsequent changes be made.

All page, section, and wording references are to the original published text in its unaltered state.

These pages have been formatted to print equally suitably on international A4, or US Letter sized paper.

Modern Spearhead – Official TO&E Errata – Version 1.00 – 26 July 2006

through to

1-M113 with 120mm Mortar"

with:

<u>2 Heavy Companies:</u> 3-Leopard 1 MBTs <u>1 Mixed Company:</u> 1-Leopard 1 MBT 2-Luchs <u>1 Armoured Company:</u> 2-Fuchs Infantry Combat Teams

Soviet & WarPac TO&Es:

USSR 1980's Motor Rifle and Tank Divisions, Categories I, II, and III (Pages 68-73):

We are developing a new TO&E to specifically cover all MRD & TDs in the GSFG that will be made available alongside these errata. It will include general notes for using it for non-GSFG Soviet Divisions and Warsaw Pact Ally

Modern Spearhead – Official TO&E Errata – Version 1.00 – 26 July 2006

<http://modernspearhead.net/>

Divisions. The existing TO&Es in the rule book (for Tank & MR Divisions) will also still be usable for non-GSFG Divisions with the appropriate errata that will eventually be provided here.

Change Log:

28 July 2006 – Version 1.00.
